

Buongiorno, *buonasera.*

The course caters for participants who are interested in learning the language in an interactive way coupled with important cultural aspects of Italy. Basic Italian is required.

The main objective of the course is to bring participants closer to the cultural characteristics of Italy. We will go over the 20 regions, talking about geographical and historical features, food, art, music, traditions, and we will focus on the most important aspects that together make up the Italian culture. A virtual trip that helps also in choosing real destinations for future holidays.

The course will involve continuous interaction with the tutor and between participants themselves. Emphasis will be mainly focused on the cultural content. A number of tasks will take place in order to develop communication skills. A different solution to establish a more practical approach to conversation and understanding.

The content will focus on teaching participants how to use;

- ❖ Basic Vocabulary
- ❖ Basic Syntax including phrases and expressions which are important for everyday communication in Italian.
- ❖ Semantics and Pragmatics including gestures and other forms of non verbal communication.
- ❖ Cultural aspects including gastronomy, music, visual arts, traditions, etc.
